## **Business Administration and Information Technology, 12-Week Internships**

---

**AUSTRALIA:** Mass Media Studios. This is a digital agency that specializes in relationship marketing using a unique blend of strategy, creativity, and technology to attract, understand, and engage customers. They are continually focused on providing the client with detailed customer insights that help them target future campaigns and achieve optimal results.

**CHINA:** Technical Support. Lenovo is an innovative, international technology company formed as a result of the acquisition by the Lenovo Group of the IBM Personal Computing Division. The roles and responsibilities of an intern are to offer technical support related to computer hardware and software on line, check and update technical problems, provide relevant information to the director, assist to operate, install, and configure different programs, and resolve customers' problems through telephone or email.

**HAWAII:** Information Technology. Interns work with leading information technology companies that work with businesses, or in a major department with a large business to fulfill their IT needs and functions. Tasks include installing applications, designing computer networks, setting up databases, managing data, designing software, and integrating electronics.

**NEW ZEALAND:** Business Center. Houses predominantly technology companies, many working at the development of cutting-edge technologies. Opportunities are available to a student with excellent IT skills, such as programming or software graphics, within one of the companies – GIS digital mapping, software development, precision equipment, and many more.

**SOUTH AFRICA:** Synergize Online. Intern will work in all aspects of the media elements involved in Search Engine Optimisation (SEO), including writing press releases, feature articles, and copy for campaigns. They will also be involved with social media, including social networking, blogging, sourcing, and creating content for social campaigns.

**SPAIN (Barcelona):** Business Communications. Interns will manage client outreach for growing organizations, increase client databases, follow up with leads, and attend networking events. Other responsibilities include helping with the development of communications and marketing campaigns, working on development projects, and creating and developing website content.
