Which Wi-Fi connections are authorized by SUNY Cobleskill network services?

It is the goal of SUNY Cobleskill network services to provide campus wide Internet connectivity. We are regularly expanding or upgrading our wireless capability to meet the demanding needs of our campus community. Our Residence Halls have all been upgraded for wired and wireless connectivity. New access points have been added to our academic buildings and other areas across campus. Below is a list of authorized SUNY Cobleskill Wi-Fi connections.
