SUNY OSCQR Rubric

Presenter: Jennifer Weingarten

This session is to introduce the SUNY OSCQR rubric. "OSCQR was designed to help campuses ensure that their online courses are learner centered and well designed, a team of SUNY staff and campus stakeholders has designed the OSCQR rubric, a customizable and flexible tool for online course quality review.

The OSCQR rubric is unique and differs from other online course quality rubrics in several ways. It is not restricted to mature online courses. The rubric can be used formatively with new online faculty to help guide, inform, and influence the design of their new online courses, and, it is non-evaluative." While this rubric is for online courses, it is applicable and helpful for reviewing any Moodle course.

Last day of faculty obligation

Incident Command Training links

These are trainings in Emergency Management for the EMC members. The first group of trainings are **mandatory** and all members should complete them. If it has been a while since you have completed the mandatory courses, a refresher/redo might not be a bad idea. FEMA recommends retaking the core group every 3 years. The next group of trainings are recommend based on specific roles of people in the EMC, and/or to share with your staff as they may benefit from the courses that pertain to your area as well.

Contact Rich Bialkowski for questions or if you need assistance getting signed up for any of the incident command training courses. Please send Rich a copy of all completed training certificates for any EMC related trainings. We need to maintain documentation of all EM training for EMC members. In addition to keeping us best prepared to respond to emergencies on our campus, the trainings of campus EMC members will be more closely scrutinized by SUNY System Admin in the future so it is important that we all take the time to complete them.
