## ZERO-SORT<sup>®</sup> RECYCLING FAQs

### What is Zero-Sort recycling?

Zero-Sort Recycling is Casella's state-of-the-art process which enables a paper, cardboard, plastic, glass, metal, and more to be collected together in one bin without the need to separate.

### How should I prepare my recyclables?

Recyclables should be prepared clean of any food waste. Corrugated cardboard boxes should be broken down into smaller pieces. Lids and caps can remain on empty bottles. There is no need to tie newspaper or cardboard with twine.

### What type of metal can I put in my recycling bin?

Aluminum and tin cans are acceptable. Pots, pans, and scrap metal such as automotive parts, motors, and appliances are **NOT ALLOWED**.

### I saw someone throw all of my recycling into a truck without separating it. Was the recycling treated as waste?

No. We have numerous Zero-Sort operations that will separate the recycling in a state-of-the-art facility. The truck will deliver the recyclables to one of these facilities. Once separated, they are sold and recycled.

### What are large rigid plastics?

Items made of plastic which include 5-gallon buckets, sleds, soda crates, laundry baskets, plastic chairs, carts, and garbage cans.

### Can I put my recyclables in clear plastic bags?

No. Plastic bags are not accepted in the Zero-Sort Recycling program. Many grocery and retail stores offer plastic bag recycling.
