
AGEN 450 Bachelor Degree Internship Program Student Learning Outcomes & Objectives and Activities

Internship Student Learning Outcomes AGEN 450:

- Students will develop a strong foundation of technical skills that will be used to diagnose various system problems commonly found on off-road equipment and recommend a set of possible solutions.
- Students will gain the ability to effectively use computer technology, software applications, and diagnostic service programs that have become commonplace in the equipment industry.
- Students will develop the skills necessary to effectively communicate their ideas in both a written and an oral method of presentation.
- Students will be expected to develop a high level of ethical and professional standards therefore, improving future employability.
- Students will utilize their understanding of business and industry to make sound business decisions that will allow them to function effectively in an ever changing global economy.

Internship Objectives and Activities:

List objectives of the internship and specific activities to be completed. Indicate approximate amount of time to be devoted to each activity. Be as specific as possible. (The Faculty Supervisor will provide guidance in initial preparation of this section with input from the Site Supervisor. Please do not submit this document until everyone is in agreement to the details below.)
